COLOR AMPULE

Available in	SKU
12.5g for 500g	depending on the color
25g for 1kg	depending on the color

COLOR AMPULE is a well thought out color system for resin from 3D-basics. It opens the possibility to color any compatible Resin with rich solid or transparent colors. Over 18 different colors for a wide variety of choice.

Application

for coloring resin

Wear gloves when handling resin. Shake COLOR AMPULE very well. Pour the content into the RESIN bottle. Shake for one minute to color the resin. Let it sit for five minutes so air bubbles can escape. Shake the colored resin before every use to even out the color distribution.

Available Colors
